

EndoMint's

Project Friendly Platty

- **Exists solely on the Solana Blockchain**
- **6969 Unique Platties and eggs, varying in color & textures**
- **Special traits with usecases and built in lore**
- **Built to retain and increase in value over time**
- **Inspired by the beautiful but endangered Australian Platypuses**

Key features

#1

Marketing is not easy, and we want to help smaller artists in the Solana NFT space!

EndoMint seeks to become a platform to help smaller artists and teams distribute their NFTs. In Q2 of 2022, we aim to start marketing independent artist collections.

#2

The Platties live in abundance on the Solana blockchain and we want to give back to the community!

To celebrate our adopters we will have two or more Friendly Platty give-away bonanza. All you need to do is hold one or more EndoMint NFTs in your wallet!

20% of the sale of Collection 2 will be given back to our community!

This will be done by calculating allocation based on wallet weight, rarity, and amount. Random wallets will receive rewards for holding, so keep those platties safe!

Key features

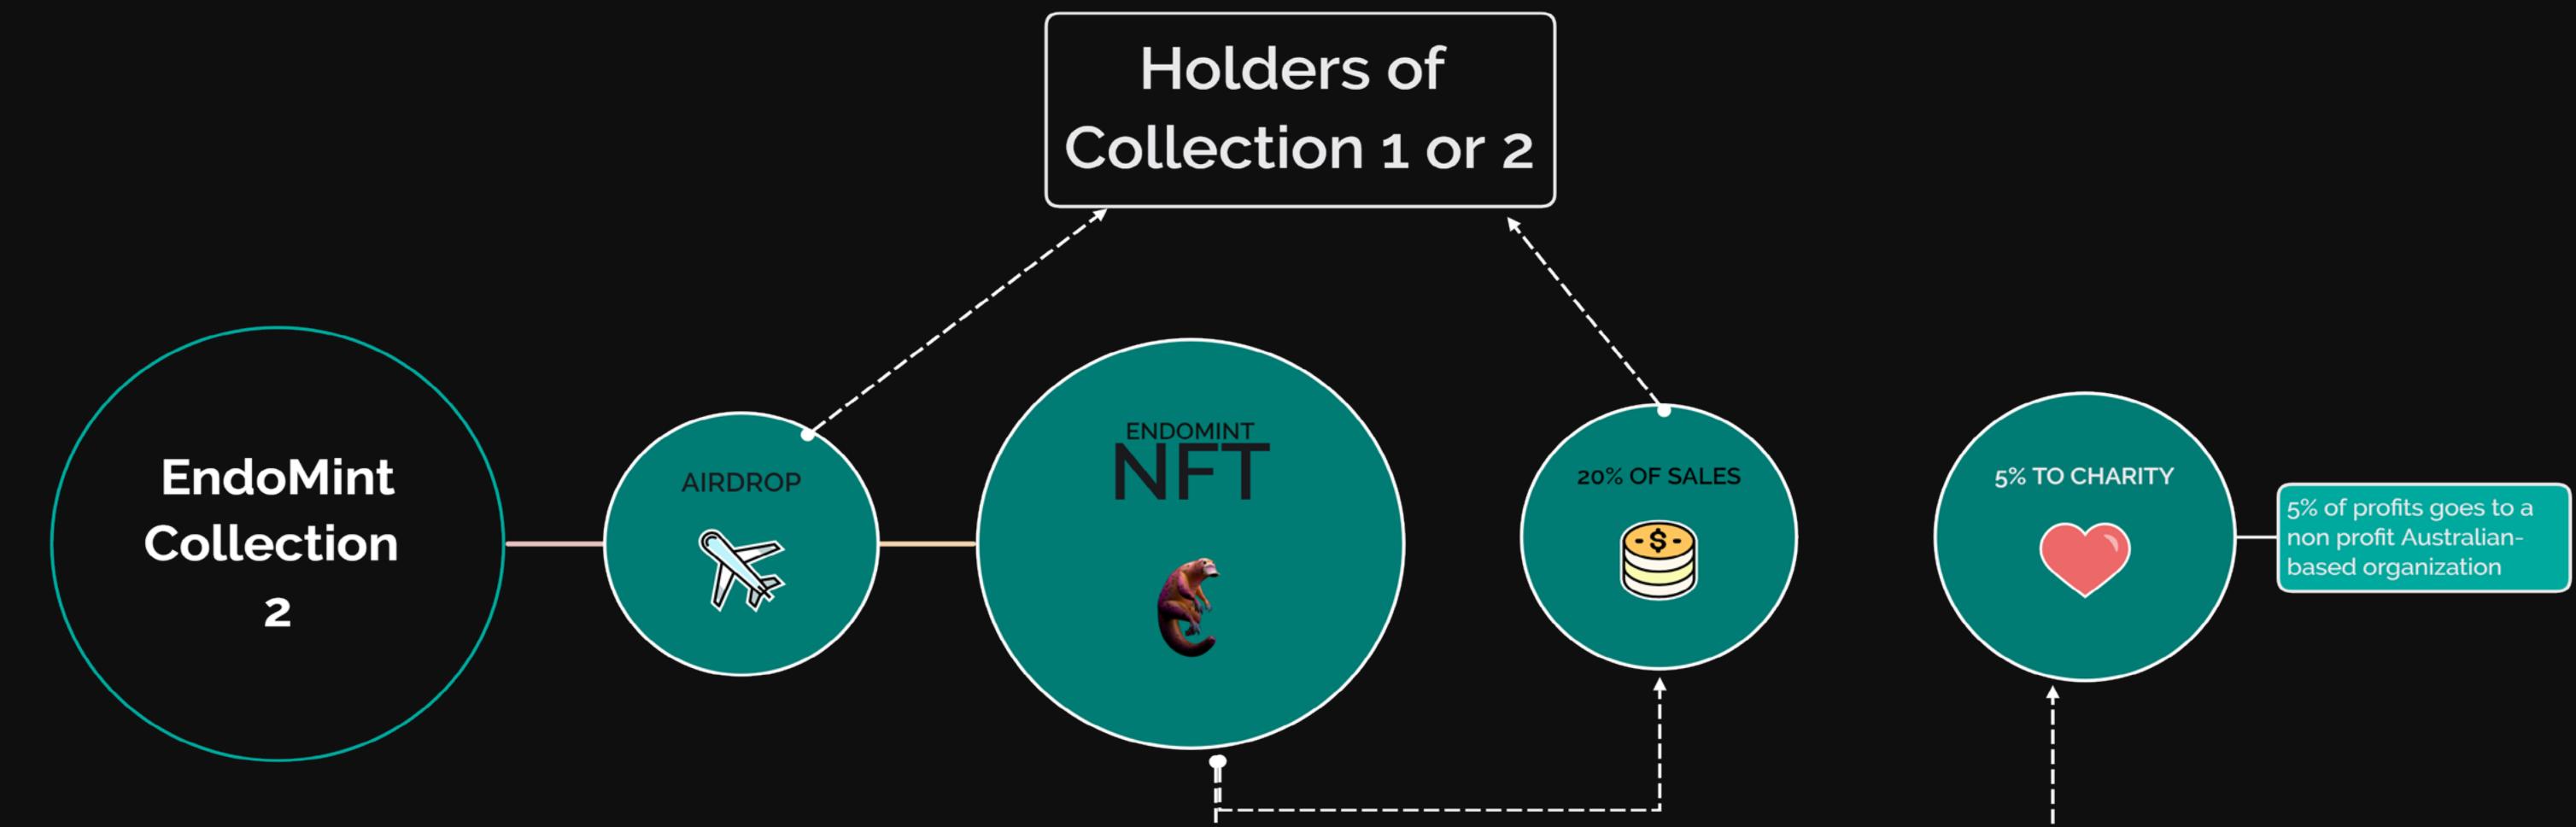

#3

Project Friendly Platty is inspired by the real world and super cute Platypuses.

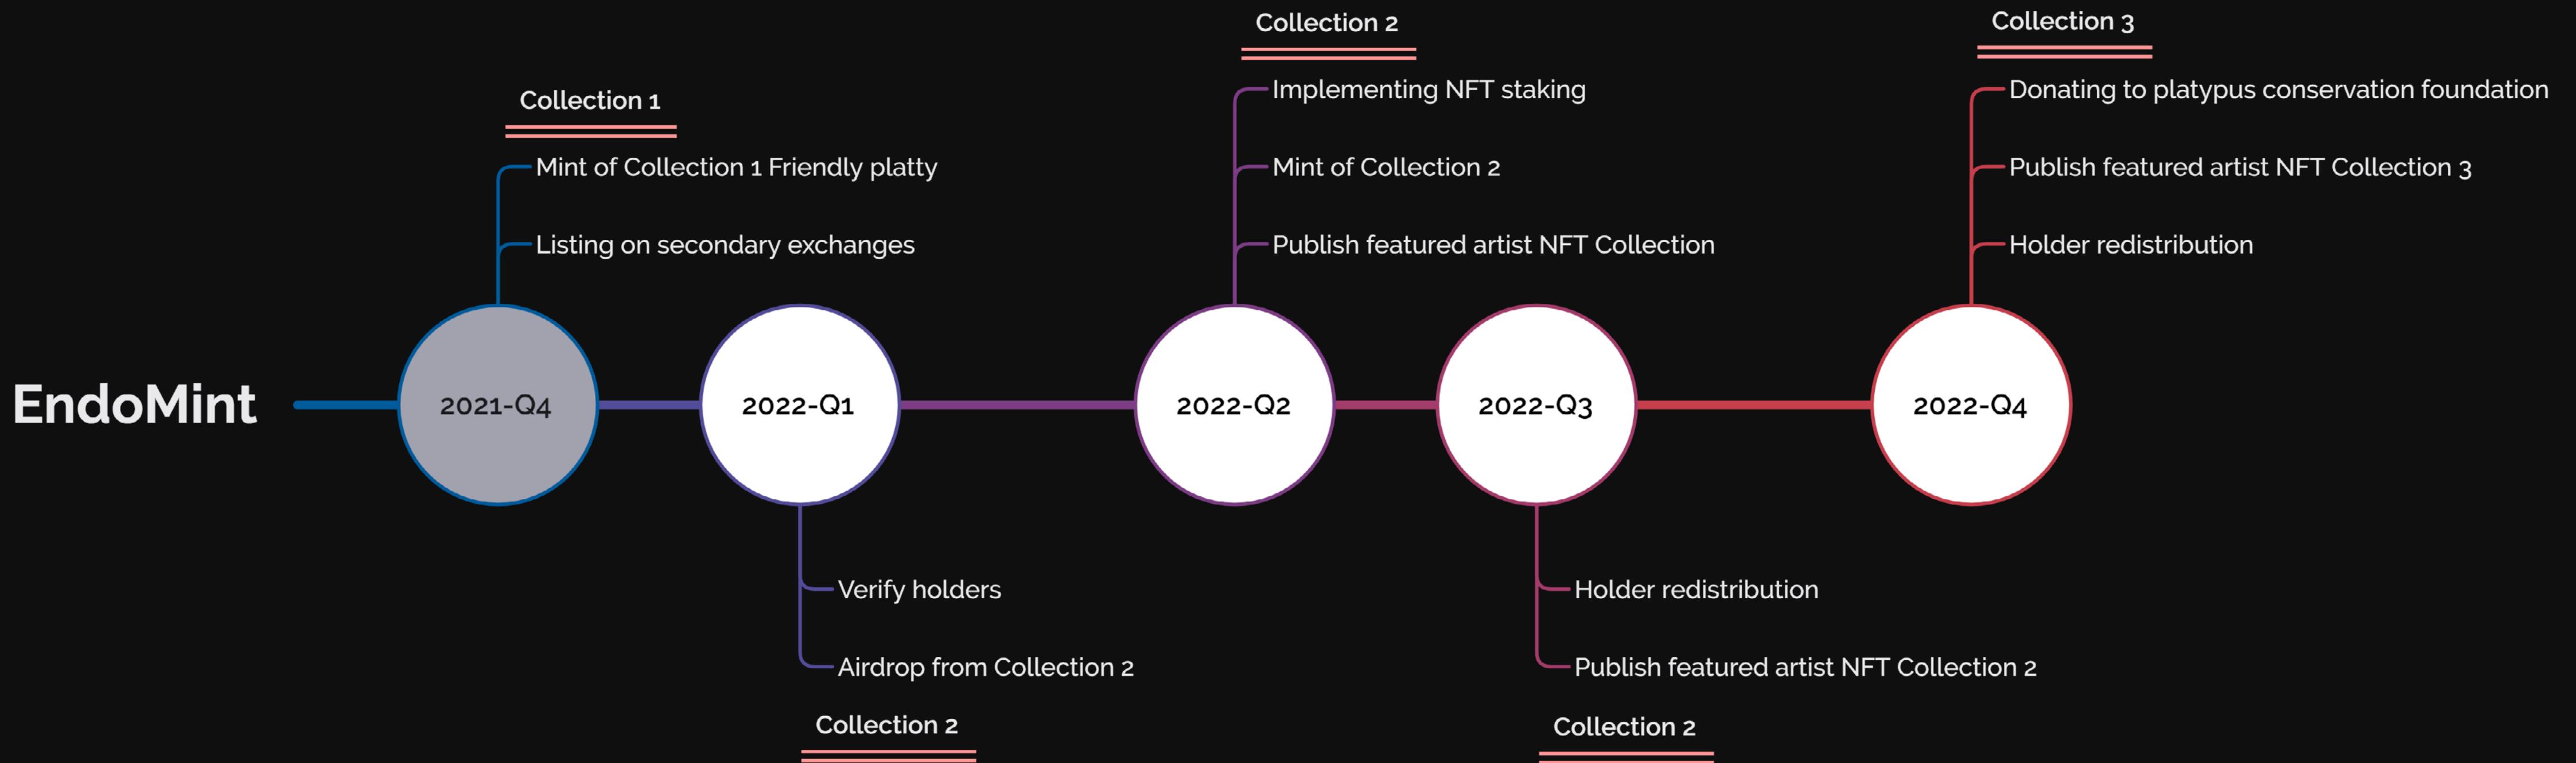

EndoMint seeks to raise awareness of this wonderful animal. We will donate 5% of profits from Collection 2 to a non-profit animal conservation located in Australia.

#4

All future releases of NFTs from EndoMint will have airdrops for holders of Collections 1 or 2!

Roadmap

Team

CEO and Founder - "Architect and artist. Spent the last 10 years teaching myself modelling software to create friendly looking platties. Shitcoin and NFT collector"

Flappy

Manager Communications and Strategy - "Jack of all concerning crypto. Working as a Strategic Advisor with promising crypto teams."

Ulquiomaru

**Team
EndoMint**

McoreD

Process and Quality Manager - "Civil engineer by day. Crypto-fanatic by night. Three principles govern my life: efficiency, consistency and compliance"

Homeless Avatar

Strategy and Communications Manager - "Materials Engineer working in the tech industry. Avid Crypto follower, novice programming dabbler."
